# KONN

Konna kaarjad pinnad annavad konstruktsioonile jäikuse. Roostevabad detailid kasti ülasosas on sigarettide kustutamiseks ja hoiavad sellega prügikasti puhtamana. Uks on lukustatav.

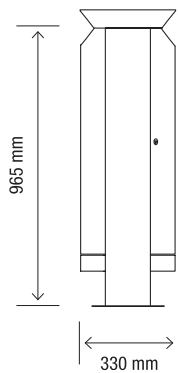

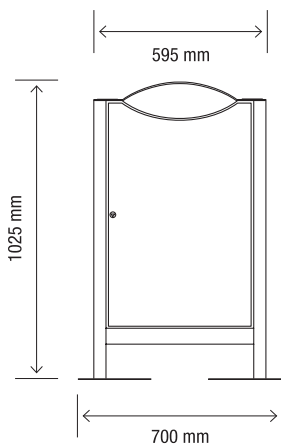

Oma elegantse joonega sobib Konna nii linnaruumi, kui ka kortermaja õuele. Valida saab kas halli, pruunikat või rohelist tooni toote vahel. Mahtuvus 75l.

The curvy surfaces of the frog give the structure the rigidity. Stainless steel details in the upper part of the bin are for extinguishing cigarette butts and keeping the bin cleaner. Door is lockable.

With its elegant lines, Konna suits to city space as well as the yard of an apartment house. The product is available in grey, brownish or green tones.

Volume 75L.

Disainer/Designer: Margus Triibmann

 Värv: Hall

 Värv: Hallikas pruun

 Värv: Tumeroheline
